## Waste not, want not.

This is the eco-conscious way to give your child access to a wider range of educational resources! Renting and sharing replaces the need to buy and keep toys, helps reduce toy clutter in your home, and extends the useful lifespan of toys by making them available to multiple households.

Re-use of toys aligns with global principles of sustainability and circular economy, conserving resources and reducing waste. Carbon footprints are further diminished by re-using delivery packaging for returns/exchanges, and deliberately scheduling for minimised courier activity.

Along with the positive connections that our toys foster in the family, we are especially pleased to be teaching principles of environmental awareness and sharing to the next generation. Thank you for being a responsible toy consumer!

## The more, the merrier!

Subscribe in 4 easy steps and start receiving Toy Boxes. Receive the toys delivered to your doorstep.

Use the Play Guides to play, and play, and play. Review your experience. Book the return of your toys and repeat the joy of new toys without the cost or clutter that toy purchasing brings you.
